

The Best Retirement Plan for Today's Market

**A Secure Retirement is one in which you
have enough income to live the life you
desire.**

**Where work is optional, and Retirement is
affordable!**

“How do I keep from running out of money in retirement?”

**“Just keep making
more money!”**

Dr. Bart DiLiddo

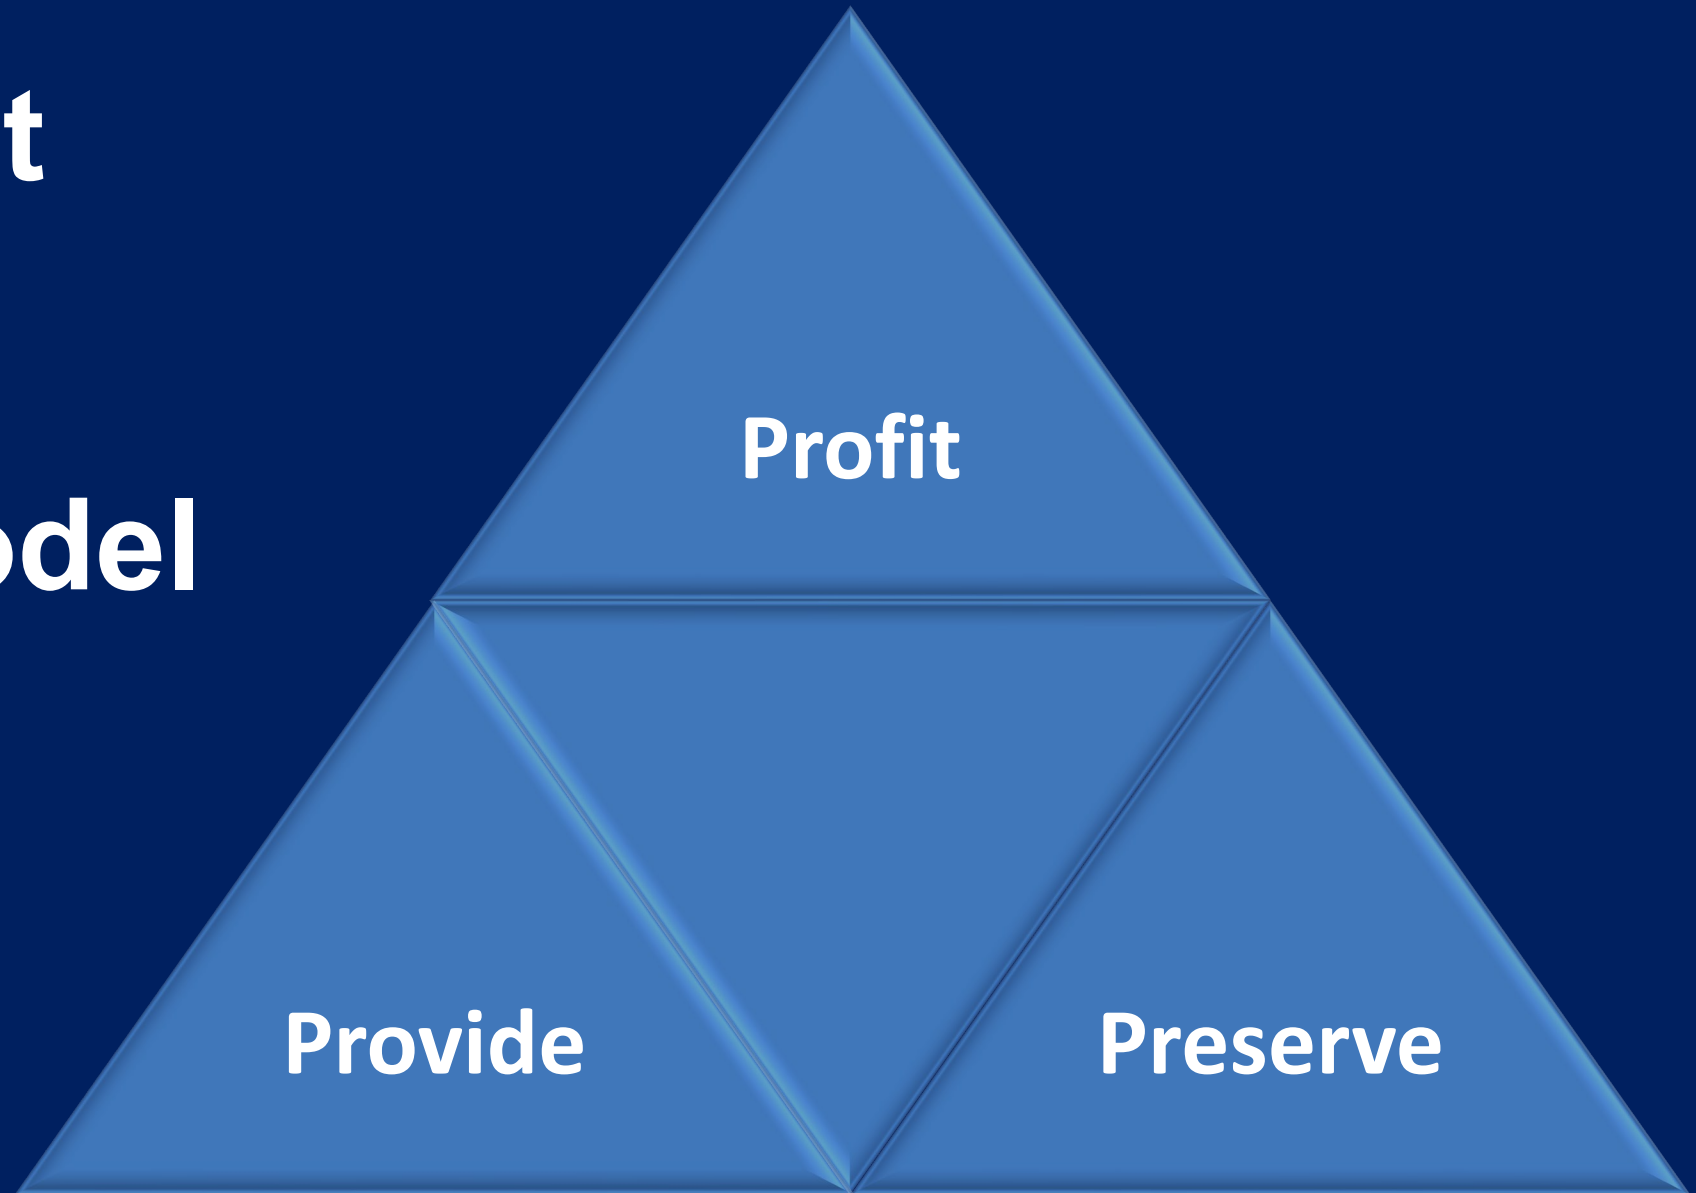

**“Take it Easy, Take it Easy.
Don’t let the sound of your own wheels
drive you crazy.”**

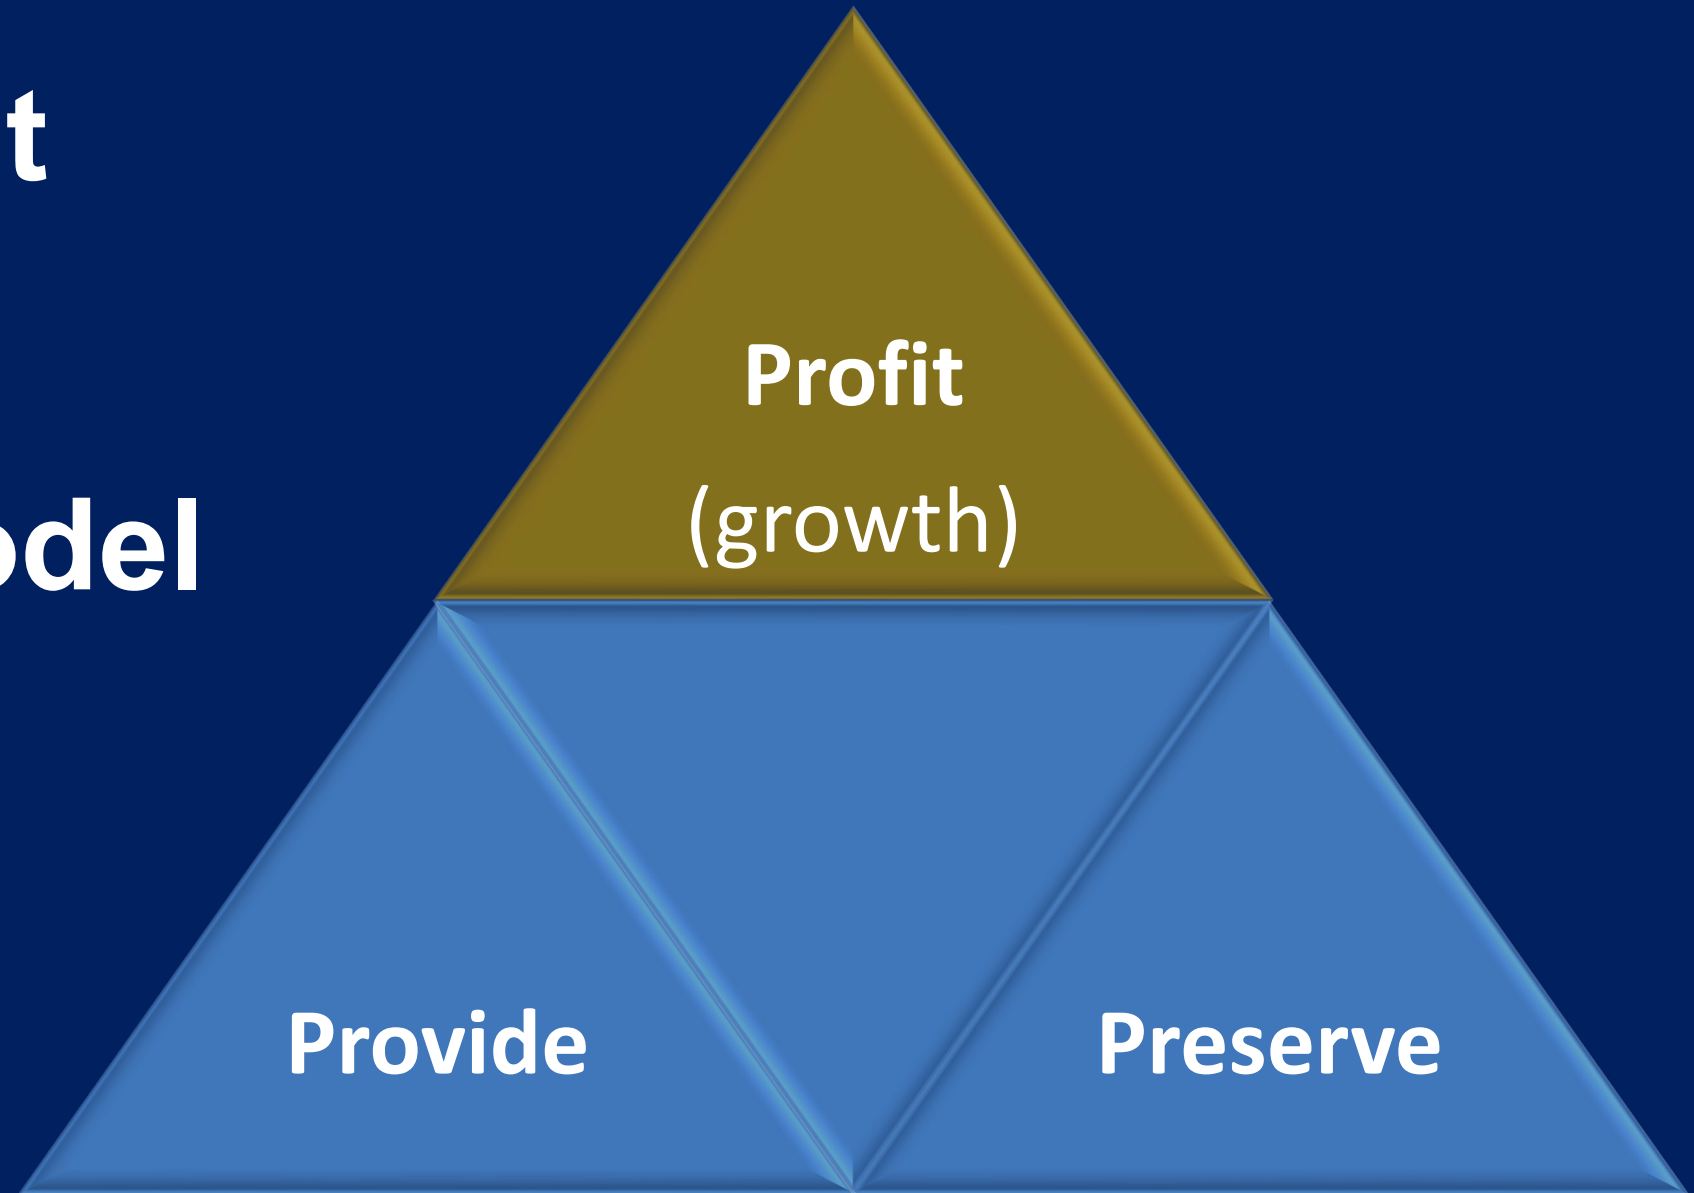

Jackson Browne

“ The interesting think about investing, it’s not like the Olympics,
**you don’t get any extra points for the fact
that something is very hard to do.** So, you might as well just step over
one-foot bars, instead of trying to jump over seven-foot bars”

Warren Buffet

Part Two

The Covered Call
is a basic, easy to
implement option
strategy.

“If you own shares of stock (minimum 100 shares) and you’re not selling call options against them, then you are throwing away free money. How’s that?”

Well, there are traders out there who will give you money today for the right to take your stock away from you if it reaches a much higher price.

Selling covered calls is such a great strategy for padding your bank account that I still can’t believe there are investors who are not taking advantage of it”

Lee Lowell - *Get Rich with Options*

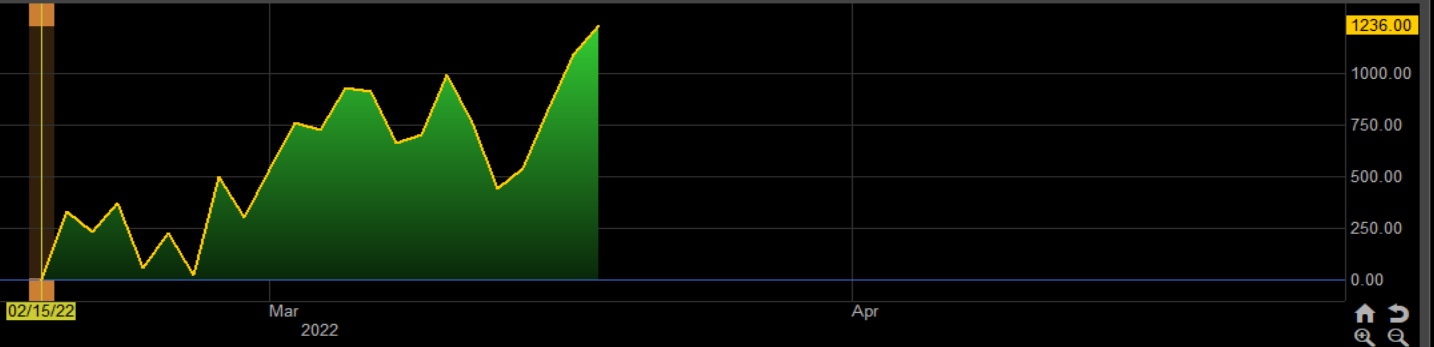

- **Generate Income**
- **Downside Protection**
- **Eliminates the greed factor**
- **Profit even if a stock doesn't go up**
